## Henry HVR200A AutoSave

Full Twinflo' 2-stage professional motor giving exceptional performance coupled with our unique AutoSave technology. The 10-metre cable storage and rewind system is a work of art, trouble free and spring free, and it keeps everything neat and tidy. The generous Tritex filter system makes sure that what goes in stays in, and giant high efficiency HepaFlo dust bags are really clean and easy for emptying.

**Twinflo'**

The AutoSave system means that every time you switch on you will automatically start on the economy setting, only if more power is needed to cope with extra dirt do you need to push the red switch to operate in Hi mode. When you see the red light you know you are in the Hi mode so when you go onto hard floors or deep carpets or don't need maximum power, push the red switch again and you are back to economy.

The standard accessory kit is fully comprehensive and even the tubes and some of the tools are stainless steel.

*A true professional in every sense of the word but never without that famous smile, loved and appreciated by users the world over... ask any Henry owner.*
